TOWN of CEDARBURG

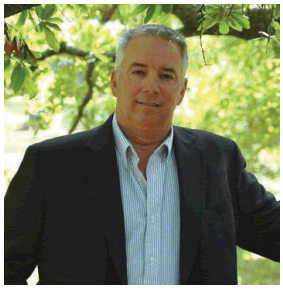
Preserving Yesterday's Heritage for Tomorrow.

DON'T MISS IT! Annual Performance Survey Inside

Town Newsletter

Spring 2010

OUR TOWN



David Salvaggio, Town Supervisor

As I write this, everyone has likely received their reassessments. Just as likely, you are recoiling from the numbers, as I am, particularly on land values. Our last reassessment was in 2003, so according to Wisconsin state statutes we were due. Earlier this year, the Wisconsin Department of Revenue made a proposal to have the County handle reassessments. The Town Board said, "No thanks," and adopted Ordinance 2010-5 in opposition. I like our government to be local and at arm's reach when necessary. This will be the case, as we have now scheduled four full meeting nights for the Board of Review.

We've all heard the old song that assessment increases do not dictate higher taxes, rather just what each taxpayer portion of the budget will be. In this economy, it's all about budgets. The Town Board has maintained a tight budget, keeping the municipal portion of our tax bill in check and is continually looking at further cost control measures (user-fee/sponsorship rec programs, equipment sharing, etc.). Our budget is approximately 15% of your tax bill, but it is the part we can most affect.

We enjoy a high quality of life in the Town of Cedarburg and that's reflected in our property values, with an equalized value of $814,891,000 prior to this reassessment. Our Town is at the top of the list compared to other townships in the area. If you look at our equalized value and population you'd have to go to the Town of Summit in Waukesha County to find better numbers. Of the 15 municipalities in Ozaukee County, our Town ranks 5th, only exceeded by three cities and one village and those have large developed commercial districts, freeway access, etc. Development at Five Corners, according to our master plan, will help lessen the tax burden on residential properties. Though in this economy development is proceeding at a snail's pace, the revenue benefits will be realized in time.

Some see townships as places waiting for progress and services, a sort of purgatory, with a slipshod government limping along on inefficiency and without direction. In reality it's just the opposite, especially in the Town of Cedarburg. Town government including public works crew, staff and even the Town Board

NOTES & REMINDERS

- New & Improved Town Website is Coming Soon!

Town Hall will be closed:

- Monday, May 31st
- Monday, July 5th
- Monday, September 6th

UPCOMING EVENTS

- May 26th - Mediation w/City
- May 30th - Maxwell St. Days
- June 5th - Cedarburg Trail Day (see page 3 for details)
- June 22nd - Little League Night @ Miller Park
- July 4th - Parade/Celebration
- July 18th - Maxwell St. Days

Town Administrator's Desk

Jim Culotta

Annual Performance Survey - Due July 1st

Spring has arrived and so has our Annual Performance Survey (enclosed in this newsletter). Town staff remains dedication to providing efficient and high-quality services. For example, we treated our road salt with beet juice this past winter, resulting in a savings of approximately $2,600 while improving roadway safety. Your anonymous input will help us identify our strengths and weaknesses. The survey is brief and should take just a few minutes to complete. Please complete and return the survey by July 1st. Survey's can be mailed or dropped off at Town Hall or the Recycling Center during normal business hours. Thank you for your assistance!

Nominations Needed for 2010 Preservation Award

We are seeking applicants for this year's Town Preservation Award. Nominate your own or someone else's recently completed historic structure renovation. Please forward your nomination to Town Preservation Award, 1293 Washington Avenue, Cedarburg, WI 53012 and explain why the particular renovation project should be considered. Nominations may also be faxed to 262-377-0308. The deadline for nominations is July 30, 2010.

LITTLE RED SCHOOLHOUSE,

Town Recreation Programs

Last fall, the Town Board directed staff to create user/sponsor-financed recreation programming that met the needs of area youth. The following summary details this new programming.

CEDARBURG LITTLE LEAGUE

Cedarburg Little League is off to a great start in its inaugural season! **Over 320** boys and girls registered to play softball or baseball this year. We affiliated our program with Little League International in order to provide our coaches with increased learning opportunities and coaching tools, ensure the safety of our players by requiring background checks for all coaches/volunteers working with the players, and create the opportunity for interleague competition for appropriate divisions of play. This season, our teams are using the Webster fields adjacent to Cedarburg High School and two diamonds we built at the Fields at Five Corners, a temporary recreation area behind Subway & Harris Bank west of Five Corners.

CEDARBURG FLAG FOOTBALL LEAGUE

Registration for youth flag football is now open for boys and girls ages 6-11. Over 60 kids have already signed up for this fall program. The fee is only $20 per participant and is the same regardless of age or residency (there is no non-resident fee). Several features will set Cedarburg Flag Football League (CFFL) apart from other local programs. Most notably, we are partnering with the Concordia University football team. Flag football players will take part in several experiences along with the Concordia University Football program including:

- Run drills with Concordia players and watch their practice.
- Attend a Concordia football team meeting.
- Walk out onto the field during pre-game warm-up before a Concordia home game.
- CFFL coaches may attend Concordia practices to pick up coaching skills and useful practice drills.

Visit www.town.cedarburg.wi.us or stop into Town Hall for details.

RECREATION PROGRAM SPONSORS

We would like to extend our gratitude to all those businesses and individuals that have stepped forward to support our recreation program. Their contributions help keep registration fees low and fund construction of our new "Fields at Five Corners" and the acquisition of baseball/softball and flag football equipment.

GOLD LEVEL ($1,000)

CEDARBURG TRAILS DAY: Blaze your own trail!

The Town is hosting the First Annual **Cedarburg Trails Day** at Pleasant Valley Nature Park on June 5th from 9am to Noon. This FREE event is part of the American Hiking Society's National Trails Day®. Take a guided walk lead by staff from Riveredge Nature Center or feel free to "blaze your own trail" through this 88-acre park. This family-friendly event offers a great opportunity to experience this parks' hidden treasurers, including walking trails, an elevated boardwalk path, an observation platform, kettles, an open prairie, a bog, and Mole Creek! Bring a picnic basket for lunch or enjoy reasonably priced food and drinks offered by the Five Corners Lions. The park is located at 5100 Pleasant Valley Road just one-half mile east of CTH I.

Message From the Town Chairman

by Dave Valentine.

I want to thank Larry Lechner for his past outstanding service to the Town of Cedarburg as Town Supervisor. Larry will continue to contribute to the Town's goals and objectives in other assignments and capacities in the future.
I also want to welcome Joe Rintelman to the Town Board as the new Supervisor of the 4th District. Joe has some "big shoes to fill," but I am sure he will bring the dedication, thoughtfulness and hard work necessary to serve the Town in this leadership position.

Just a word of caution as the Town and City enter into mediation -- PLEASE do not believe everything you read in the newspapers. Many times the facts of a story get twisted or misinterpreted or speculation is reported as a fact. Remember the headline in the newspaper article about the accusation that the Town violated the Open Meetings Law? Not True. These accusations were found to be false by the Washington County District Attorney after a lengthy investigation and a lot of Town tax dollars were expended to defend the Town. Another example is the repeated and repeated reporting that the Town either "withdrew from" or "terminated" the Town and City Shared Services Agreement. Not True. The agreement simply expired on 12/31/09. It was not replaced by a new agreement. The reporting implies the Town was the "Bad Guy" in this situation. In reality, the Town Board continues to work diligently to keep taxes low, make sure every agreement and/or contract is fair and that the Town has input/control when it comes to decisions that impact our taxes. Not agreeing to wasteful and inefficient spending on any program (including the Shared Services programs) does not make the Town the "Bad Guy."

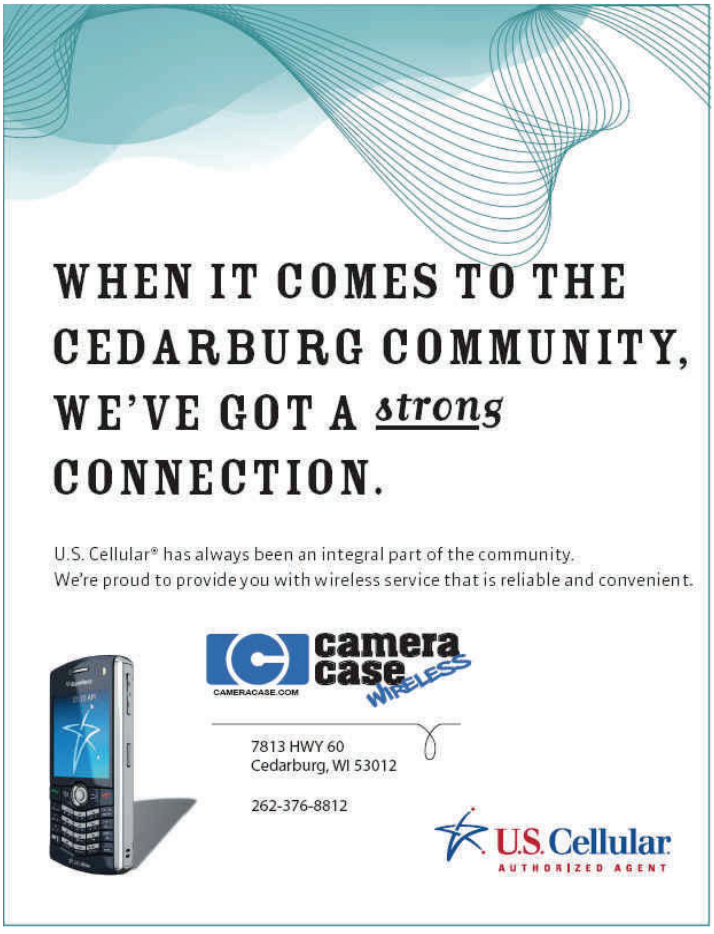
What will result from the pending mediation? No one knows at this point. Obviously, the Town Board would like to change the current relationship with the City Council. The Town Board has always been willing to talk and negotiate with the City Council. The Town agreed to mediation with the City about two years ago, the City in that case did actually "withdraw" from the planned mediation. No matter what the final outcome of the mediation with the City, the Town will continue to move forward in a planned, controlled and logical manner to develop a strong tax base while still protecting the Town.

REMINDER: January 1, 2011 starts the mandatory use of Town approved refuse containers. The three sizes of containers can be viewed and purchased at Town Hall.

I encourage everyone to be involved and stay informed regarding Town government. Attend a Town Board meeting the 1st Wednesday of each month at 7PM. I hope you will soon be able to watch a Town Board meeting on the Town government access channel on Time Warner channel 25 or www.cedarburgtv.com, as the meetings will hopefully be taped and rebroadcast. Visit the Town web site for details about a wide variety of topics that may impact you. Also, please feel free to contact me or any Town Supervisor with questions or concerns.

NEED A NOTARY?

Town Hall has a Notary available Monday – Friday 8am-4:30pm. A notary is a government licensed officer who has been given the power to authenticate documents. All documents must be signed in the presence of the notary and proper identification is required. There is no charge for this service.



A Letter from Cedarburg Fire Chief, Richard R. Van Dinter

Cedarburg Fire Department volunteers have been protecting your family, friends, businesses and property for nearly 144 years. A tradition of valor, service and dedication to this community has been a legacy of excellence since 1866. Our firefighters are our neighbors, friends and local business people who have volunteered and served. We are always on call, ready to risk everything to protect this community.

The Cedarburg Fire Department is building a Firefighters Memorial Park to honor the past, support the present and represents a vision for the future. The centerpiece of the park will be a bronze sculpture, designed by local artisan, Norm Christianson. The sculpture, called "Generations" depicts an old chief from early 1900's, and a modern firefighter guiding a child, who represents a future firefighter. – see watermark.

I am asking you to help support the sculpture with a generous donation to make the "Generations" Memorial a reality and support those who are always there for our community. The Cedarburg Fire Department has committed the funding necessary to develop the park area surrounding the sculpture.

Please make your check payable to the Cedarburg Fire Department Memorial Fund. If you have any questions, please do not hesitate to contact me or any member of the department, at 375-7630. Thank you so much for supporting the legacy of the fire service in Cedarburg through your generous gift and accept my personal thanks.

REFUSE CART DEADLINE APPROACHES

All properties that have refuse collected by the Town should purchase a Town approved tippable refuse cart by December 31, 2010. Beginning January 1, 2011, Town crews will no longer collect refuse from any other type of container. Carts are available in 35 gallon, 64 gallon, and 95 gallon capacity and range in price from $38 to $52. As a rule, if you currently place a single garbage can or one or two bags out for collection, a 35 gallon cart should be adequate, if you put out two regular cans or three to four bags, a 64 gallon cart may be adequate. Residents putting out three cans, or five or six bags should consider purchasing a 95 gallon cart. Cut out the order forms below and mail or drop it off at Town Hall. Free delivery to your home is available or stop in to pick it up.

The Constable's Corner

Terry Zimmerman, Town Constable

Helpful Tips on Being a Good Neighbor

Most neighbor disputes and complaints I receive involve a small handful of rules within our Town Code. The following are a few helpful tips and reminders.

- Only burn clean (untreated) wood, paper products, and diseased vegetation (per Town Code §273-29).
- Don't have disassembled, inoperable, unlicensed, junked or wrecked motor vehicles outside a building for a period exceeding five days (per Town Code §246-4).
- Don't allow your dog to run at large or habitually bark or howl (per Town Code §95-6).
- Don't discharge a firearm within any subdivision, or within 150 yards of any residence (per Town Code §237-2).
- Don't discharge fireworks without a permit (per Town Code §237-7) See below for details.

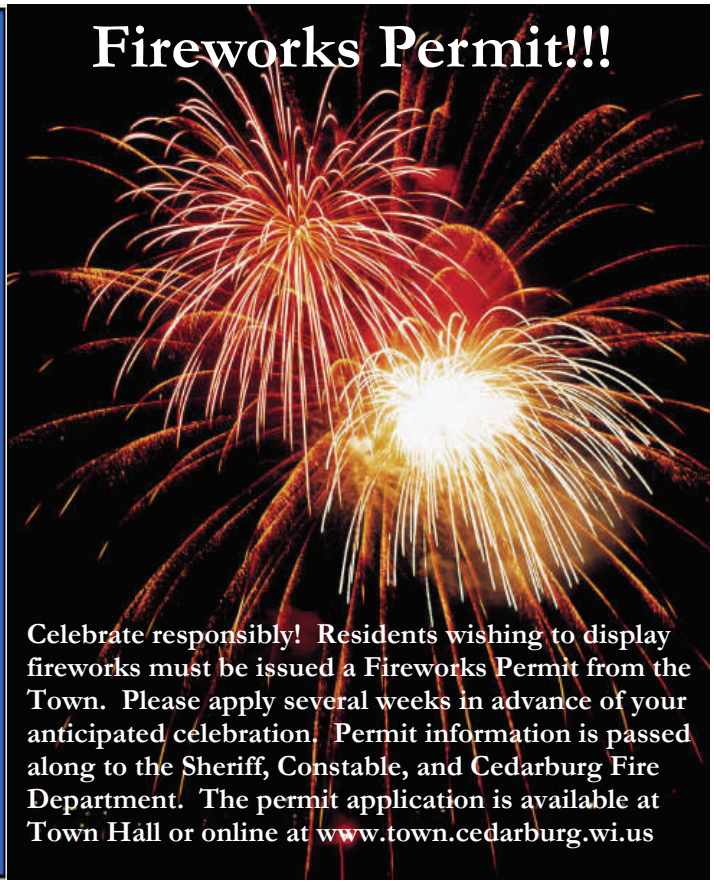
If your neighbor is not following one of these or some other Town rule, try to address the situation directly with them. If you don't feel comfortable doing so or are unsuccessful, contact me at Town Hall 262-377-4509.

Supervisor Salvaggio continued from page 1 . . .

wear more hats than they care to count. Aided by dedicated citizen volunteers and enthusiastic residents lending expertise ranging from the environmental field, planning, financial, all the way to Little League coaching and fund raising for our new recreation programs, when compared to other municipalities, our Town government is a model of efficiency. Keep an eye on the Town website for information on the Five Corner's Master Plan, rec programing, public works initiatives and more. Also, don't forget to sign up for our e-Notify. http://www.town.cedarburg.wi.us/

So if you think I am "talking up" the Town, you get it. There is a lot of good stuff to talk about.

Best Regards, David Salvaggio - Town Supervisor



Public Works Notes

Bob Eichner, PE - Director of Public Works

APPLIANCE PICKUP - Residents may bring their unwanted appliances to the bulk metal area behind the recycling center for disposal. If you are unable to bring it to the recycling center, a special pick-up can be arranged for residents starting at $25 for the first item and $15 for each additional item. Regardless of how it arrives at the recycling center, there is an additional $15 charge for refrigerators, freezers, and de-humidifiers.

ELECTRONICS RECYCLING - Last year, our recycling center began accepting electronics and computers for recycling. All computers and monitors, fax machines, televisions, stereos, microwaves and small appliances, radios, and tabletop copy machines and printers (weighing less than 75 pounds), may be brought to the recycling center during recycling hours on Thursdays and Saturdays. This service is available to Town residents only and there is a $25 charge for any television. This must be paid and a sticker applied to the TV before it is left for recycling. The stickers are available at the recycling center or at Town Hall during normal business hours. Thanks to the support of this program, the town recycled over 25 tons of electronics in 2009.

PAPER GROCERY BAGS - Family Sharing of Ozaukee County is now an authorized recycler of our paper grocery bags. Family Sharing reuses these bags rather than recycle them. Residents wishing to donate bags to Family Sharing may drop the bags off in the Town Hall Lobby during normal business hours or at the recycling center during open hours. We ask that the bags be folded and placed in another bag to make pick-up easier for Family Sharing.

SCAVAGING RECYCLABLES - Please be aware that scavenging recyclables from the recycling center is not permitted by Town Ordinance. All recyclables left in the center become the property of the Town. Eliminating scavenging helps maximize revenue obtained for recyclables and ultimately keeps your taxes low. We appreciate your cooperation.

BRUSH & WOOD PRODUCTS - Although the recycling center does not accept brush, the Town does offer roadside brush chipping between April 1st and October 15th. Call Town Hall to place your brush chipping order. Please remember that **only clean wood may be burned**. The Town does not accept large amounts waste construction lumber or any amount of other construction material in the refuse or at the recycling center. Residents are encouraged to reuse this wood or dispose of it in another manner.

Town Road Improvements for 2010

This year, the Town will be repaving Fielding Drive and reconstructing Cedar Creek Road from Maple Road to Stoneridge Lane. The existing asphalt will be pulverized and repaved 4 inches of new asphalt on both roadways. Cedar Creek Road will also be widened to match planned improvements on the portion of this road being completed by the Village of Grafton. Not only will these roadways be improved, but drainage problems, such as deteriorated driveway culverts and ditch re-grading, will also be addressed. Residents along these roads will be notified in detail before any work begins. Road work may begin in August. For specific questions, call Bob Eichner, Director of Public Works, at 377-4509.

Rain Barrels Help Manage Stormwater

A rain barrel collects and stores rainwater from your roof that would otherwise find its way to our ditches, ponds, lakes and streams. Run-off from roofs can contain large amounts of pollutants known as total suspended solids, typically sand, dust, leaves, etc. Collecting this run-off in a rain barrel allows the solids to settle out and the cleaner water to be used to water lawns or gardens. The barrels are usually composed of a 30 to 55 gallon drum, hose, a screening system for debris and insects, and couplings usually made from PVC. The barrels are relatively simple to construct, or can be purchased, and can be placed under most downspouts without any modifications.

Contact the Milwaukee Metropolitan Sewerage District or Ozaukee County Land and Water Management for details on purchasing rain barrels. The Town website also has a how-to guide on building/installing rain barrels.

BRIEF HISTORY OF FIVE CORNERS

by William Malone

(Note: William Malone (1913-2003) was the unsung historian of the Town of Cedarburg. He was born and reared on the Malone family farm just north of Five Corners. He was a wealth of information and provided this brief history to me several years before his passing. With the anticipated development of the Five Corners Sports Complex and Business District it is a fitting tribute to Mr. Malone to share his historical perspective. -- Carol Boettcher, Landmark Commission)

Five Corners is located at the intersection of Washington Avenue (formerly State Highway 143), State Highway 60 and Covered Bridge Road. On the northeast corner of this intersection a party by the name of Holland built a small two-story residence and saloon in the 1880's.

Tax records show it formerly belonged to Patrick Halpin, a farmer and horse breeder. The next owner was Peter Rinn who operated the saloon from the 1890's to the early 1900's. The next owner was Albert Hartwig who owned and operated the saloon from the early 1900's to about 1910. [*Albert Hartwig (1861-1939) was also a well-known breeder of hunting dogs and the son of Dr. Theo Hartwig.*]

A different view of the last visible landmark of Five Corners - Rinn's Tavern (L) and Dance Hall (R)

August Pump was the next owner who did extensive remodeling, adding more living quarters, a small store and a dance hall, where many weddings were celebrated.

The store featured everything from axel grease to wash boilers. It also had a small candy counter which featured penny candy. About 40 feet south of the saloon August Pump built a concrete abutment in the form of a "V" with iron rings embedded for farmers to tie their horses to while indulging in spirits or shopping for groceries. Inside, this abutment housed a gasoline pump which would dispense 10 gallons of gas at one filling for farmers who could afford a car. Many farmers put their cars up on jacks for the winter, as they were difficult to start in the cold weather.

Across the road to the west was a storage shed and an open horse shelter. The storage shed housed barrels of salt pork which weighed 300 pounds. Farmers bought salt by the barrel for their livestock and to salt down the pork shoulders, ham side pork and bacon. The coarse salt was also used in the household for table use and was dispensed in small "salt cellars". The horse shelter was about 48 feet in length, exposed to the south for farmers to tie their horses in case of inclement weather.
