

## Town Newsletter

### Winter 2011

#### **Carrying On Established Traditions**

I am the new member to the Town of Cedarburg Board, and I have been a resident of the Town my entire life. As I begin my duties as a supervisor, I will never forget that I am only one person in a long succession of individuals, each who sought to make our Town a better community in which to live. During my short time on the Board, I have been impressed with the loyalty and dedication of the employees and board members of the Town. I will do my best to help move the Town of Cedarburg into the future by remembering you, the citizens who have placed your faith in the government that serves you.

**Wayne Pipkorn,  
Town Supervisor**

When asked by friends and family, why at this stage in my life would I want to get involved with Town government, I quoted a former supervisor, a long time friend of my father, to whom I asked the same question about 37 years ago. He stated that every person in their lifetime should donate and devote some quality time to serving their church and community. My hope is that more of you get involved and make a difference. I as a board member encourage you to attend the monthly Town meetings, I want to hear your opinions on matters that the Board considers. I understand that I, or my fellow board members do not have anything of a personal nature to gain with our decisions. Respect our final decision, as we respect your right to voice your opinion.

Similar to federal and state governments, the Town staff and board also is faced with difficult economic challenges. We recently passed the 2012 budget that will strive to support and sustain the current services the Town residents deserve. We did this without increasing the Town taxes, and did not compromise needed services. The Town of Cedarburg is a great place to live, work, and raise a family. This is due to the efforts of past supervisors delivering good government, and I will try my best to continue that tradition. By sharing a common goal of democratic progress, there is little that we together cannot accomplish.

I have accepted the responsibility of being one of your Town supervisors. I will do my best to listen to your opinions, consider your ideas, and answer your questions.

## Jim Culotta

### Town Board Approves 2012 Budget— Property Taxes Frozen Again

By now you've received your tax bill and discovered that the Town portion of the bill was the same as 2011. For the fifth year in a row, the property tax rate has not increased, which is the longest streak in over 30 years. The 2012 budget maintains the current level of services, enhances road maintenance efforts, and does not add new debt. The Town Board also decided to continue to mail this Town Newsletter next year; we will not go to an electronic-only version in 2012.

Earlier this year, the Town's recreation program, which is not supported by property tax dollars, was recognized by the Wisconsin City/County Management Association with the 2011 Outstanding Program. "It's innovative and community orientated programs such as this that make the Town of Cedarburg a vibrant community in which to live, work and play," according to Ed Henschel, Executive Director of WCMA.

As you can see in the table below, residents continue to give Town services high marks in our Annual Performance Survey. More than half of the services received a higher excellent/good rating than in 2010. All Town employees deserve credit for these strong performance ratings.

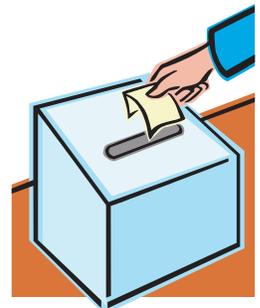

Town Services	Excellent/Good	Fair/Poor	No Opinion
Trash Collection	96%	4%	0%
Recycling	85%	10%	5%
Road Maintenance	68%	31%	2%
Ditch Maintenance	60%	31%	10%
Snow/Ice Removal	83%	15%	3%
Recreation	42%	8%	50%
Park Maintenance	48%	5%	47%
Brush Chipping	37%	10%	54%
Building Inspections	34%	2%	65%
Constable	24%	3%	73%
Elections	86%	3%	12%
Other Town Hall Services	48%	2%	51%

### 2012 Election Update

There are potentially four Town elections in 2012. The Town Board consists of five members: one Chairman and four Supervisors. Each Supervisor represents a District for a two year term. In 2012, Supervisor Districts 2 and 4 are up for election. If you are interested in running for one of these positions, you must file a Campaign Registration Statement before circulating nomination papers. All candidates must also file a Declaration of Candidacy and completed nomination papers by 5 pm January 3rd. For more information, contact the Town Clerk Dawn Priddy or the Wisconsin Government Accountability Board at <http://gab.wi.gov/>. See pages 6 and 7 for more election info.

#### Upcoming Election Dates

- Spring Primary: February 21, 2012 (if needed)
- Spring Election: April 3, 2012
- Partisan Primary: August 14, 2012 (if needed)
- General Election: November 6, 2012

# Recreation Notes

Eric Ryer - Director of Recreation & Planning

Town user/sponsor-financed recreation programming strives to meet the needs of area youth and fill service gaps.

## THANKS TO RECREATION PROGRAM SPONSORS!

We want to thank businesses and private donors for their generosity in 2011, as over \$18,225 was collected through sponsorships and the Little League Night at Miller Park fundraiser. Many improvements were completed at the Fields at Five Corners that would not have otherwise been possible without this money (see the bottom of this page for projects).

## CEDARBURG LITTLE LEAGUE

The City of Cedarburg girls softball program and Maxwell's softball club will be combining with Cedarburg Little League in 2012 (in addition to baseball). Our softball teams play in a five community league with Grafton, Jackson, Richfield and Germantown to allow for a variety of competition. In an effort to further build our program, players will have access to free softball off-season clinics this winter at local school gyms. Over 315 boys and girls registered to play on 28 baseball/softball teams in 2011. Thanks to all the coaches, parents, umpires, and other volunteers for your participation!

## CONCESSIONS STAND COMING IN 2012

The Five Corners Lions Club will be offering concessions for sale in 2012 out of a new stand that was constructed and donated to the Town by Bryce Rutkiewicz as his Eagle Scout project. The Lions Club began selling concessions this past summer, and the stand will no doubt help them increase offerings in future years.

## CEDARBURG FLAG FOOTBALL LEAGUE

The Town partnered with the Concordia University football team again in 2011 resulting in some unique experiences for the kids. The fall mini-camp was a favorite. This event was held on the Concordia University football field, with coaching staff and players organizing and running the drills. Kids were also allowed free admission to any Concordia home game if they wore their CFFL shirt to the game. The 2011 fee for all participants was \$28.

## DEEP WATER TONING / PICKLE BALL

The popularity of the deep water toning program continues to grow, with 28 participants for the fall season. The one-hour classes are held on Tuesday/Thursday nights at the Cedarburg High School indoor pool. The program is open to all area residents and there is no non-resident fee. The Town will be offering pickle ball again in the spring of 2012. A sport once played mainly at retirement communities is growing in popularity among all age groups. The Town offers this tennis-like game at Thorson elementary school, with the spring season set to run from March through May, 2012. Registration will open up in February. Interested individuals should visit the Town website for more on these activities.

## IMPROVEMENTS TO THE FIELDS AT FIVE CORNERS

The Town undertook a series of significant improvements to the Fields at Five Corners in 2011 that will upgrade the facility. The equipment boxes were replaced by an equipment shed for better equipment organization. Five twenty-foot tall Maple trees purchased at a significant discount from Johnson's Gardens were planted in two locations to provide shade. Three evergreen trees donated by Bill Morse were also planted at the park entrance. Two sets of bleachers will be installed in spring to provide seating areas, and some new tables will be constructed and placed near the new concessions stand. The turf was fertilized again which will result in a thicker playing surface, and the infields have had a base course of top dressing laid down. A second course will be laid in spring to continue building the playing surface which will better handle rain and provide a softer surface in drier times. Finally, a new ground sign will be installed at the entrance of the fields in the spring, finishing off the latest efforts.

**Keep The Town of Cedarburg the “Town”**  
**by Chairman Dave Valentine**

There is a small group of Town of Cedarburg and City of Cedarburg residents working quietly behind the scenes and planning to merge, consolidate or combine the Town and City into one entity. The apparent objective is officially and legally to have “One Cedarburg.” Although on the surface this may appeal to some and may seem to eliminate whatever divide that is perceived between the Town and City, it is a very bad idea from a Town resident viewpoint.

First, many Town residents are living in the Town precisely and specifically because of the rural, independent atmosphere and to get away from “city living.” That is neither good nor bad in my opinion, just a personal and/or family preference or choice.

Secondly, the increased property taxes on Town residents would be huge. It would be great for City tax payers, but if the Town and City would be one entity taxes would have to be consistent. The current property tax rate per \$1,000 assessed valuation is \$2.32 in the Town. The current City property tax rate is \$6.49 per \$1,000 assessed valuation. Realistically, if the Town and City merged into one governmental body, the tax rate would have to be somewhere between these two rates for all taxpayers. Just on the surface, it is obvious the Town rates would increase and the City rate would decrease.

However, most likely there would be vast increases in expenses that would make this endeavor even more “taxing.” Sure there might be some savings here and there by combining programs, but just the need to expand police protection to serve the entire area would far outweigh any potential savings. I would assume legally if there is one government, everyone is paying equally on property taxes. In addition, everyone should expect the same services. Policing another approximately 30 square miles of the Town and 67 miles of Town roads could not practically and effectively be accomplished by the current City police personnel or police physical equipment.

There are other very costly services that could impact some Town residents. Expansion of the City sewer and water system to part of the Town would have a dramatic impact on those residents and businesses directly affected. Sewer and water installation is already a plan of the City with their expanded sewer service area that extends into the Town. Other services such as the library, trash removal, recreational opportunities, etc. would also increase costs and therefore require added property taxes to cover costs.

The Town and City have had completely different ideas on recreational costs and fees. The Town believes in a “user pays” philosophy, where those who participate or use the program pay for fees that cover the costs. Thereby, the recreational programs are not a burden to the Town taxpayers. The Town recreational programs do not have a residency requirement, as it really does not matter where the participants live. This has proven to be very successful and effective. The Town has won awards for our innovative and successful recreational programs. The City has historically subsidized recreational programs with tax dollars. That, in fact, is exactly why the Town does not currently have a shared services agreement with the City. The Town Board did not believe Town taxpayers should be levied property taxes for programs/services that they do not use.

	Total Assessed Valuation	Approved 2012 Budget	Approved 2012 Tax Rate/\$1,000	Change in rate/\$1,000 if combined
Town	\$791,550,000	\$2,356,187	\$2.38 (+0.0% change from 2011)	+113%
City	\$1,176,000,000	\$7,638,061	\$6.49 (+1.8% change from 2011)	-21.7%
Combined	\$1,967,550,000	\$9,994,248	\$5.08	

Let’s take a real life look at the numbers and potential changes in property taxes. This is just that facts: This would anticipate a no net increase in expenses, which is highly unlikely just considering the required increase in police protection costs. The above increase is *only* on the “Town portion” of the property tax bill, but it is quite significant anyway. The owner of a \$300,000 property in the Town would see an increase of at least \$810 dollars per year.

In my opinion—**Keep the Town of Cedarburg the “Town.”**  
 Dave Valentine  
 Town Chairman

# The Constable's Corner

## Ryan Fitting, Town Constable

### Concealed Carry Law & the Town

2011 Wisconsin Act 35, relating to the carrying of concealed weapons within the State of Wisconsin, was signed into law on July 8<sup>th</sup>, 2011. The Act went into statewide effect on November 1, 2011. Below, I have listed some of the related regulations that have changed in the Town Code of Ordinances as a result of this Act.

Section 232-1, B.(15) Park Regulations/Firearms:

- (a) Within a Town park it shall be unlawful for any person to have in his/her possession or under his control:
  1. Any firearm or air gun as defined in the WI statutes, unless the firearm is unloaded and enclosed within a carrying case. This subsection does not apply to a licensee, out-of-state licensee, law enforcement officer, a qualified out-of-state law enforcement officer or former officer as defined in State Statutes 175.60(1), 175.60(1)(j) and 941.23.

Section 237-3. Carrying concealed weapons; certain weapons prohibited., of the Town of Cedarburg Code of Ordinances is hereby deleted.

Town ordinances (Section 237-2), state statutes and WDNR regulations provide the complete guidelines for hunting and discharging firearms within the Town limits. Please be mindful of the regulations and respectful of residents in the area.

### American Flag Disposal

If you have a flag that is in need of proper disposal, the Peter Wollner Legion Post 288 in the City of Cedarburg has a 24-hour flag drop box that is emptied daily located at W57 N481 Hilbert Ave. The seven Ozaukee County legion posts combine their flags and dispose of them properly on an annual basis; they disposed of roughly 5,000 flags in 2010. Proper disposal by the legion creates a particularly dignified and solemn occasion for the retirement of unserviceable flags.

## What To Expect On Election Day's Starting in 2012

Voter Photo ID is now the law in Wisconsin. Starting in 2012, voters will be required to show a photo ID, such as a driver license or state-issued ID in order to receive a ballot and vote.

- Voters should have their photo ID ready when they enter the polling place.
- Newly registering voters will have to provide proof of residence. You do not necessarily have to show your photo ID when registering, but you will have to show photo ID before being issued a ballot.
- Poll workers will ask you to state your name and address. This is not a new requirement of the voter photo ID law. It has always been a requirement.
- Poll workers will ask you to show your photo ID.
- The photo ID must be one of the acceptable documents specified by law.
- The photo ID must be current. For driver licenses and state ID cards, military IDs, and passports, they can be expired, if they expired since the last November general election
- A voter's photo ID must reasonably resemble that voter.
- The name on the photo ID must conform to the voter's name on the poll list. An exact match is not necessary. For example, Bob conforms to Robert, Sue conforms to Susan, and Smith-Jones conforms to Smith if the voter has recently been married.
- Poll workers will ask you to sign the poll list. If you are unable to sign because of a physical disability, you are exempt from this requirement. You should inform a poll worker that you are unable to sign.
- If you do not have a photo ID, you are allowed to vote by provisional ballot. You can bring your photo ID to the polling place later that day. You may also present your photo ID to the municipal clerk in person, or provide a copy of your photo ID to the municipal clerk by 4 p.m. the 3rd day after Election Day (Friday). If you provide photo ID by the deadline, the ballot will count. If you don't provide photo ID by the deadline, your ballot will not count.

Please be understanding and kind to the poll workers. For detailed information about the Voter Photo ID law, please visit the Government Accountability Board website: <http://gab.wi.gov> or call 1-866-VOTE-WIS.

### New Town Ward Map

The Town approved a new ward map as part of the County redistricting. Please review the ward map below and locate your residence to verify your ward and polling location.

**Districts 1 & 2** (Wards 1, 2, 3 & 4 vote at Town Hall)    **Districts 3 & 4** (Wards 5, 6, 7, 8, 9 & 10 vote at Fire Station #2)

## Planning Underway for State Road Projects

The Wisconsin Department of Transportation (WisDOT) is currently planning several road projects in and around the Town. Two roundabouts are scheduled (bottom right) to be constructed on WIS 181 at Bridge Road and Western Avenue in 2013. A roundabout at WIS 181/Washington Ave./Sycamore Dr. (bottom left) is scheduled for construction in 2019. This new roundabout will have five legs and one of the legs will serve the Town-proposed sports complex. WisDOT has just begun a new study on the WIS 60 Corridor from US-45 in Jackson to 11th St. in Grafton. Deficiencies and safety concerns are being evaluated and possible solutions will be considered over the next two years.

### New Book Chronicles History of Cedarburg

It's not every day that a book about your community is written. Earlier this year, Arcadia Publishing released a new book in its Images of America series entitled *Cedarburg*, authored by Lisa Curtis. *Cedarburg* celebrates the history of our community with archival photographs, many of which can also be seen hanging in Town Hall. The book contains a chapter exclusively on the Town of Cedarburg.

Books are available online and at The Cedar Creek Trading Post in the Settlement, Creekside Books, the Ozaukee County Historical Society, Olsen's Piggly Wiggly and Walgreens.

  
Lisa Curtis

## Carbon Monoxide

*Chief Rich Van Dinter, Cedarburg Fire Department*

Often called the silent killer, carbon monoxide (CO) is an invisible, odorless, colorless gas. CO is created when fuels such as gasoline, wood, coal, natural gas, propane, and methane burn incompletely. In the home, heating and cooking equipment are the most common source of CO. A vehicle running in an attached garage can also produce dangerous levels of CO.

Infants, pregnant women, and adults with physical conditions that affect their ability to use oxygen (i.e. emphysema, asthma, and heart disease) can be more severely affected by lower amounts of CO than a healthy adult. A healthy person can be affected by large amounts of CO in a short time or small amounts of CO over a longer period. Common signs of CO poisoning are similar to flu-like symptoms (i.e. headache, nausea) and a pinkish tint to the skin. In 2005, US Fire Departments responded to 61,000 non-fire incidents in which CO was found; an average of 7 calls per hour.

### Carbon Monoxide Safety Tips

- CO alarms should be installed in a central location outside each sleeping area and on every level of the home and in other locations where required by applicable laws, codes or standards. For the best protection, interconnect all CO alarms throughout the home. When one sounds, they all sound.
- Follow the manufacturer's instructions for placement and mounting height.
- Choose a CO alarm that has the label of a recognized testing laboratory.
- Call your local fire department's non-emergency number to find out what number to call if the CO alarm sounds.
- Test CO alarms at least once a month; replace them according to the manufacturer's instructions.
- If the audible trouble signal sounds, check for low batteries. If the battery is low, replace it. If it still sounds, call the fire department.
- If the CO alarm sounds, immediately move to a fresh air location outdoors or by an open window or door. Make sure everyone inside the home is accounted for. Then, call for help from a fresh air location and stay there until emergency personnel arrive.
- If you need to warm a vehicle, remove it from the garage immediately after starting it. Do not run a vehicle or other fueled engine or motor indoors, even if the garage doors are open. Make sure the exhaust pipe of a running vehicle is not covered with snow.
- During and after a snowstorm, make sure vents for the dryer, furnace, stove, and fireplace are clear of snow build-up.
- A generator should be used in a well-ventilated location outdoors away from windows, doors and vent openings.
- Gas or charcoal grills can produce CO — only use outside.

## TOWN OF CEDARBURG EARLY SAWMILL INDUSTRY

by Richard Bayley (edited by Carol Boettcher)

Early settlers arriving in the Ozaukee county area in 1837 found a great deal of difficulty in moving things around. There were only narrow Indian trails leading from Milwaukee north and this area was a dense forest of oak, hickory, butternut, beech and thornapple. In order to survive it became necessary for most of the early arrivals to become loggers, not only to provide roads but to clear enough land for their cabins and small crops of grain.

The first road to be surveyed in what was then Washington County was the Green Bay road from Chicago to Green Bay. This was done in 1832 and 1833 and was the only road in the area surveyed until 1835. Usually the roads were blazed at the time they were surveyed. Blazing consisted of cutting a large chip off of each of a series of trees, with a hatchet or axe, that showed the center line and direction the road would take. These light colored patches in the woods then served as a visible guide for later felling and grubbing operations.

The road was not cut out north of Milwaukee until 1836-37 and it generally followed what is now Teutonia Avenue. John Weston, Timothy Wooden and George Graves were contracted to grub out the road at this time, felling the trees and rolling them out with teams of oxen. Brush was also grubbed out to a width of two rods (33 feet). Only primitive bridges made from the felled trees were constructed along the route and it reached to Wisconsin City (Port Washington) in 1839.

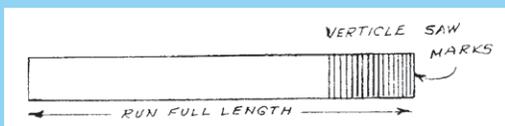

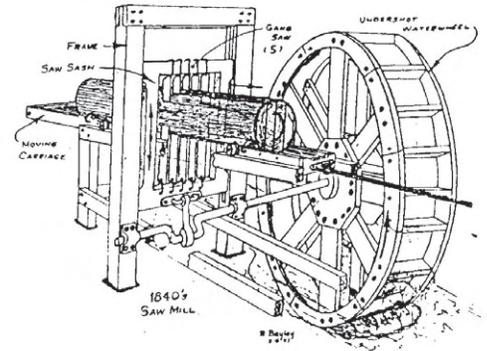

The need for wood was very great in the newly forming villages north of Milwaukee, as well as Milwaukee itself. Due to the lack of roads, the settlers found it unprofitable to take logs to Milwaukee by either wagon or sleigh.

At this time there were sailing ships plying the lake stopping at various ports all the way to Chicago. Steamboats were also operating at this time and they required many cords of wood to feed their hungry boilers. While the logging operation was successful, the settlers also needed finished lumber to build homes and business buildings.

The first sawmill in Cedarburg was built in 1839 by Reuben Wells. It was built in combination with a grist mill which was the first in Ozaukee County. Up until then residents had to take their grain to Waukesha for milling which was at least a two day trip. Mr. Wells had claimed three different quarter sections (each 160 acres) of land on August 4, 1838 as a squatter, however, it appears that he had only made the qualifying improvements on one of the sections on a spot east of the present site of the Nail Factory along Cedar Creek.

The mill's waterwheel was powered by the creek and the sawmill probably would have looked somewhat like the example shown in the illustration. It was known as a frame saw which consisted of blades mounted in a sash that was guided by a grooved frame that allowed it to move up and down. The number of saw blades depended on the power available from the waterwheel and in early years the moving carriage would have been advanced by hand. This type of sawmill left a distinct saw cut pattern as shown here.

Undoubtedly marks of this type can be found on the boards of the older buildings in the city. The trees in the area at that time were extremely old, some starting growth prior to 1700, were very large, some of the roof boards in the oldest homes being wider than two feet.

# Public Works Notes

## WINTER ROAD MAINTENANCE

The season for slippery roads and cold temperatures is upon us again. The Town will strive to keep the roads in good winter driving condition. Here are a few things to keep in mind:

- ✓ **Park vehicle off of the road**, as soon as possible, if a storm is predicted. This includes during our clean up operations in the days following a storm.
- ✓ **Don't tailgate** the snowplows. Plow trucks stop and back up frequently, especially in intersections. State Statutes require staying back 200 feet.
- ✓ **Check your mailbox post** that it can withstand the force of plowed snow. If your mailbox is damaged by an orange Town plow truck, please call Town Hall at 262-377-4509.
- ✓ **Do not "push, blow, shove or in any way deposit any snow or ice onto any public street, alley, sidewalk, or public lands dedicated to public use."** §237-14 B(3) Town Code.

All of the Town's plow trucks are **orange**. If a red truck is plowing your road, it is an Ozaukee County plow. Each municipality has responsibility for its own roads and any damage that occurs as a result of plowing operations. When a storm occurs over night, our trucks are usually called out about 3:00 a.m. We have four plow routes and are generally completed with our first round before 7:30 a.m. The first round of plowing is not a full shoulder-to-shoulder clearing of the roadway. We make a single pass down each lane and a circle in the cul-de-sacs. Subsequent rounds will widen the roadways and clear the centers of the cul-de-sacs and intersections. Salting will be done in conjunction with the first round of plowing unless extremely cold temperatures or high winds would render the salt ineffective.

Clearing the roads and making them as safe as practical for the traveling public takes precedence over other operations. When we have heavy snows or ice, the garbage routes may be delayed at least until the first round of plowing has been completed. **Please put your garbage out on the regular pick up day.**

## Winter Parking Restrictions

Winter parking restrictions are in effect from November 15<sup>th</sup> through March 31<sup>st</sup>. These restrictions prohibit parking on any road between 1:00 a.m. and 7:00 a.m. Any vehicles parked in violation of these regulations may be removed, either by the Town or by a private service and the owners shall be responsible for all fines and charges associated with the removal, towing or storage of the vehicle.

**A friendly reminder on the proper way to place a refuse cart at the end of your driveway.**

**Incorrect - Handle/Hinge is facing the center of the road**

**Correct - Hinge/Handle is facing away from the road.**

**Dog License Renewal by March 31st**

All dogs must be licensed in the Town of Cedarburg and licenses must also be renewed each year. The 2012 fee is \$5 for spayed/neutered dogs and \$10 for non-spayed/neutered dogs. A \$5 late fee will be assessed for licenses issued after March 31st. When not indoors, all dogs must be kept in an enclosed area or on a leash!

**Eye Glasses Drop Box**

As a reminder, the Cedarburg Lions Club has several eye glasses drop box locations in and around Cedarburg. These include Cedar Creek Healthcare, Cedarburg Library, Northshore Bank, Harris Bank at Five Corners, Harris Bank on Columbia, Port Washington Bank – Cedarburg, Walgreens, CVS, M & I Bank, Tri City Bank – Cedarburg, Ye Olde Pharmacy, and US Bank – Cedarburg.
